a
IEEE 30-bus: G1 bid direction
First amortized query: 138; 1000-query speedup: 6.74×
Cumulative computation time (s)
Early-query detail
Number of price queries Q
b
IEEE 30-bus: G2 bid direction
First amortized query: 18; 1000-query speedup: 20.54×
Cumulative computation time (s)
Early-query detail
Number of price queries Q
Persistent CHP reoptimization
Parametric Oracle (offline included)
